Primo Water Ice Chooses the Tabby “Tablet Based” Solution

Primo Water Ice, located in South Jersey, east of Philadelphia, is open year round selling water ice, ice cream, shakes, pretzels, and a few other snack items. They have a game room in back, a sit-in area and they specialize in birthday parties.

Primo had been using low-end Royal cash registers, simply entering prices. They recognized the deficiencies and were looking for a “tablet based” solution.

Primo Water Ice installation was completed in April 2014 and features:

- Tabby Smart Printer
- Two Samsung 10" Android Tablets with Stands
- Two CRS Cash Drawers
- Tabby access from Laptop and iPhone

Diane Gonzalez' Tabby Story...

"I met Primo's owners at one of the Ice Cream shows I did early this spring. Using the customer's tablet, we opened a browser and accessed Tabby. I showed them how easy it was to access the Tabby software and ring up a sale. They were impressed.

We closed the sale in March. The purchase included the Tabby and two cash drawers. For inputting sales, they are using two Samsung 10" tablets with stands – they also access Tabby with their laptop and iPhone.

The cash drawers are separated by an 8 foot window, so we used an extension cable for the cash drawer. After a short training, the customer programmed their own items. We added some new pictures that they were able to use for the water ice icons. I loaded the Tabby Tool onto her laptop so they could backup the Tabby to the PC. Training was easy and the employees had no problem ringing up sales transactions and taking their shift reports. The installation went live in April and they have had no issues or complaints."

About POS and Credit Solutions

Located in Mount Laurel, NJ, POS and Credit Solutions serves the Philadelphia metropolitan area and is an authorized SAM4s, NCC and Sterling Payment Technology reseller.

Owner Diane Gonzalez has over 30 years of experience in the POS industry and is very active in the local frozen dessert community, participating in several supplier and dessert industry trade shows every spring. Water ice, also known as Italian ice, is a sweetened frozen dessert made with fruit, juices or flavorings and is similar to sorbet. Water ice is growing fast in popularity in the Northeast USA.
